The 1965 edition of *Cumulated Index Medicus* is published by the National Library of Medicine, Public Health Service, U.S. Department of Health, Education, and Welfare. This publication comprises the annual cumulation of monthly issues of *Index Medicus*, the Library's comprehensive listing of current articles from approximately 2,500 of the world's biomedical journals.

For the past five years, *Cumulated Index Medicus* has been published by the American Medical Association in cooperation with the National Library of Medicine. All communications regarding the editions for 1960-1964 should be addressed to the American Medical Association, 535 North Dearborn Street, Chicago, Illinois 60610.

Since 1964, *Index Medicus* and *Cumulated Index Medicus* have been produced by the National Library of Medicine's computer-based Medical Literature Analysis and Retrieval System (MEDLARS). Both publications are composed on GRACE (Graphic Arts Composing Equipment), a high-speed computer-operated phototypesetter.

Cumulated Index Medicus is available on annual subscription from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Price for the four volume set is $40.00; $50.00 foreign. Only complete sets will be sold.

Monthly issues of *Index Medicus* are available on annual subscription from the Superintendent of Documents. Price $40.00 per year; $49.00 foreign. Single copies: $3.75. All communications regarding subscriptions should be addressed to the Superintendent of Documents.
